

## TRAVEL CHECKLIST

- Make sure your **travel documents**, like your passport, are up to date, including your vaccination passport. Your passport **must** be valid for 6 months of your travel return date.
- Make **photocopies** of your travel documents and keep them in your luggage.
- **Inform your bank** and credit cards you will be on vacation out of country from/to. Sudden out-of-country purchases can raise fraud flags.
- Purchase some **local currency**.
- Consider **Manulife Global Travel Insurance** for your vacation (medical, cancellation, baggage and loss, etc.)
- Turn off your water; nobody needs to come home to a flooded basement.  
Lower your heat; keep your costs down while away.  
Have a small light on a timer, to make it look like someone is home.  
If you have a **home alarm system**, let the company know when you'll be away.
- Arrange for any pet care if needed.
